

Jen Easterly
Morgan Stanley
Sun Life Plaza, North Tower
Calgary, Alberta, T2P 3N3

Dear Ms. Easterly,

My name is Nhat Nguyen. I am interested in the position of Front-end Web Developer at Morgan Stanley. Having recently graduated from the Web Development Certificate program at SAIT, I believe that my knowledge of front-end coding and strong interpersonal skills will make me a great asset to the Morgan Stanley team.

As a former student, I have developed strong skills in data analysis and problem-solving. I dedicate considerable amounts of time to perfect my projects. I enjoy taking on challenging tasks that require me to work outside of my comfort zone. My skill set includes extensive knowledge of CSS3, HTML5, JavaScript, Node, JSON and MySQL. Being an avid learner, I have the capabilities necessary to keep my skills up to date and relevant.

It is my understanding that IT and business teams at Morgan Stanley work together collaboratively. With over three years of retail and customer service experience, I have developed strong teamwork and communication skills that I can apply to my position as a Front-end Developer. I have a strong work ethic and believe in the importance of cross-team cooperation and believe that I can provide my team with the right support and motivation to effectively complete our projects.

I've enclosed my resume which further outlines my skills and education in web development. I can be reached at my cell number, (403) 968-7981, or via email at nhaatn1@gmail.com. I am looking forward to further discussing this position at Morgan Stanley with you soon. Thank you for your time and consideration.

Sincerely,

Nhat Nguyen
